

# Mario Klobučarić

Artificial Intelligence Engineer

## Profile

I am an Artificial Intelligence Engineer with 5 years of experience in software development, teaching coding, and automation. My expertise lies in building AI applications, software development, and data engineering.

With prior 10 years of experience, I possess a comprehensive perspective on problem-solving and solution-finding. This is complemented by my effective business communication skills and project management experience, gained from leading and contributing to various projects.

## Employment History

### Artificial Intelligence Engineer at techXflow d.o.o. (self-employed)

November 2023

- **AI Product Management:** Assessing technical feasibility of AI products, leading iterative development, implementing data-centric approaches, managing ambiguity, and fostering continuous learning.
- **AI Product Development:**  
Large Language Models (LLM): ChatGPT, Claude, Gemini, Open-source models  
Retrieval Augmented Generation (RAG), AI agents
- **Software Development:** Python, SQL, JavaScript (React)
- **Data Engineering:** ETL (Extract, Transform, Load) pipelines
- **Cloud Platforms:** GCP and AWS

### Teacher & Head of Regional Competence Center at Technical School Čakovec, Čakovec

September 2018 — November 2023

- **Led Comprehensive Lectures and Workshops:** Covered subjects, including coding (Python, Flutter), automation, and business communication.
- **Promoted a Culture of Experimentation:** Fostered a learning environment that encouraged trying new things, practical application of theoretical knowledge, and viewing mistakes as essential learning steps.
- **Played a prominent role in the implementation of two EU projects** valued at €7.5 million

### Head of International Projects and Sales Network at ENERGY PLUS d.o.o., Ludbreg

January 2016 — July 2018

- Supported top-tier international clients and presented the company at fairs
- Worked on LED lighting projects documentation and investment projects, emphasizing Energy Performance Contracting.

## Languages

Croatian

English

German

## Agency Director at Međimurska energetska agencija d.o.o., Čakovec

January 2013 — January 2016

- Directed agency operations, resource management, growth strategies and successfully transformed the agency's financial standing toward complete self-sustainability.
- Managed multiple energy-focused projects and campaigns, promoting, and implementing energy efficiency and renewable energy adoption.

## Licensed Designer at DORS PROJEKT d.o.o., Čakovec

August 2010 — December 2012

- Designed electrical installations for various sectors, including “smart home” and photovoltaic plants.
- Consulted on renewable energy regulations and privileged producer status.

## Designer at ZG-PROJEKT d.o.o. , Zagreb

November 2007 — July 2010

- Designed electrical installations for highways, tunnels, and road lighting
- Estimated savings for lighting fixture replacements

## Development Engineer at V-elin d.o.o., Čakovec

June 2006 — September 2007

- Assisted in digital/analog system development and contributed to water monitoring projects.
- Prepared technical documentation and supported related software.

## Hobbies

Reading: Technology & Future,  
People & Mindset, Personal Growth  
Others: Running, Playing Guitar

## Education

### 56 ECTS, Faculty of Organization and Informatics, Varaždin

2017 — 2018

- Specialization: Teachers Education (Pedagogical/  
Psychological/Didactic/Methodical)
- GPA: 4.55/5

### University Specialist of Strategic Entrepreneurship, 60 ECTS, Faculty of Economics, Zagreb

2008 — 2011

- Thesis: Leadership in Social Responsibility & Social Entrepreneurship
- GPA: 4.6/5

### Graduate Electrical Engineer (Industrial Electronics), 274 ECTS, Faculty of Electrical Engineering and Computing, Zagreb

2000 — 2005

- Thesis: Multichannel Receiver for Surface Electromyography
- GPA: 4.15/5

### Natural Science and Mathematics Gymnasium, Čakovec

1996 — 2000

Awards: 1st (3x) & 3rd (3x) in County Mathematics Competitions (13-18 years)

## ⚙ Courses & Certifications

**DeepLearning.AI: Retrieval Augmented Generation (RAG), Coursera**

August 2025

**Generative AI Leader, Google Cloud Certification**

July 2025

**DeepLearning.AI: Data Engineering (AWS) - Professional Specialization, Coursera**

October 2024 — December 2024

**Various online courses on topics: Python, LLMs, RAG, Vector Databases, Data Science, ML, Flutter, GCP and similar, - Udemy, DeepLearning.AI**

2019 — 2024

## ★ Projects

- AI-Powered Web-based Platform for Energy-Efficient Renovations and Renewable Energy Consulting
- Agentic workflows + RAG
- MCP server + Claude Desktop
- Text to SQL agentic app with open-source models
- Educational Assistant App Study Buddy - Frontend (Flutter), Backend (Flask)
- Machine learning manual based on Kaggle's Titanic dataset
- Robotic arm system with Python GUI on Raspberry Pi
- Raspberry Pi web server for environmental data visualization
- Webpages
